

SMALL FRUITS FOR GAMBENS. A correspondent in Meigs Co. asks us to Raspberries, Strawberries, Custants, Gooseberries, &c., adapted to Southern and Central

Ohio. We will do so quite bris fly, contining our selection to su h varieties as have been

to plant them. The Delaware Grape," as it effect a cure. is called in these parts, has thus far escaped To Bake Apples .- Take sour apples --

-it is a little larger, of a purplish red color, moisture. very productive and good.

ther column of this paper.

varieties we should care to have in a garden; may be replenished annually without cost. although some of the newer kinds may dererve to be added whenever the plants can be chtained at mederate prices.

riety called Houghton's Scedling, is the only kind that can be relied on, and the fruit of ti is is rather small, and of but little flavor when ripe; but it bears profusely, and is ex-

never acquires the same degree of maturity, Pebruary 1st. 155-ts. so that three-fourths of the crop will be ripe enough to cut six or eight days carrier than the other fourth ought to be harve-ted. This unevenness of ripening often causes a consid-

2d. Less seed by a fourth is required per out 13. acre where it is well drilled than where it is sown broadcast; and it can be covered at a nearly equat depth, thereby securing a much better stand.

3d. It is entirely practicable to stir the ground between the rows of properly drilled wheat; and this cultivation, duly performed, benefits the crop as much as tiliage between rows of maize, turnips, beets, carrots, potatoes and beans, benefits these well-known. agricultural plants.

4th. Clean culture tends to prevent undue dampness about the stems and leaves of A wheat as it approaches maturity, and thereby renders it less liable to be attacked by rust at the most critical period of its growth.

Other incidental advantages might be named, but enough has been said to justify the (ARTER'S SPANISH MIXTURE ... preference generally given to the use of the tiele of Mercuryinit. drill in the sowing of this important grain .-Now is the time to prepare for putting in wheat in first rate order next autumn; and we invite attention to the facts that wheat is now, on the 18th day of May, worth \$2,25 a bushel in Rechester; and in all human probability, the farmers of this county will harvest in July, now close at hand, over afteen hundred thousand bushels of prime Genesse wheat.—

Blood a now used by thousands of grateful patients from all parts of the fluence of patients of all patients of an analysis of grateful patients from all parts of the fluence of the formal parts of the fluence of the fl

mato plants early, and tend them well till the fruit begins to set, then cover the ground completely with short straw, six or seven inches deep. This works admirably—the vines need no props, and will stend drauth remarkably.

Pract Terms are greatly benefitted by a heavy mulching of straw around the roots—I build a pen say 4 rails high, around each bearing tree, fill these with straw, and iff fowls are plenty pile on broah, to prevent their scratching out the straw. I have one large tree, planted 12 years ago, that has long been treated in this way, and it is as vigorous as ever.

To Secure Bacon from the Fl.T.—A writer in the American Former recommends as an infallible remedy against the fly:—When your bacon is smaked early in the appearance, take guick lime sirekened to a dry powder, and the content of the fly has made ite appearance, take guick lime sirekened to a dry powder, and the content of the conten

fore the fly has made its appearance, take quick lime eleckened to a dry powder, and rub the meat thoroughly on every part with it, leaving it to adhere as much as possible; hangup your ment, and rest secure from any trouble from meects. We have for many years rubbed our hams with hickory would sches, and then packed them up in ashes in close casks, with tight-fitting tops, and we have yet to find the first insect in our bacon. We think ashes preferable to lime, and are much pleasanter handling in packing away. Groceries, Hardware, Queensware, &c. or in getting rid of when the hams are required for use .- Germantown Telegraph.

GUM ARABIC STARCH .- Get two ounces of fine white gum arabic, and pound it to powder. Next put it into a pitcher, and pour on it a pint or more of boiling water (according to the degree of strength you desire.) and the desire that persons who are entitled to Bounty lands and the having covered it let it set all night. In who has the proper formula to obtain the same. to the degree of strength you desire,) and

the marking, pour it carefully from the dregs into a clean bottle, cork it, and keep it for use. A tablespoonful of gum water stirred into a pint of starch that has been made in the usual manner, will give to lawns (either white or printed) a look of newness to which nothing else can restore them after washing It is also good (much diluted) for thin white

muslin and bobinet.

ECONOMICAL FAMILY PUDDING .-- Bruise with a wooden spoon, through a colander, six large or twelve middle-sized boiled potatoes; beat four eggs, mix with a pint of good milk, stir in the pointoce, sugar and seasoning to taste; butter a dish; bake half an hour .-This is simple and economical, as it is made of what is wasted in most families, viz, cc'd potatoes, which may be kept two or three name a few of the best varieties of "-mall days, till a sufficient quantity is collected .fruite" for garden culture, such as Grapes. It is a weekly dish at our table. A teaspoon ut of Scotch ship marmalade makes a delicious seasoning.
